

FBO RESERVATIONS REQUIRED

Q4, 2024 - Q3, 2026

RESTRICTED OPERATING CAPABILITIES DURING CONSTRUCTION

Clay Lacy is building a new FBO and hangar complex at John Wayne Airport. Construction begins on October 28, 2024, and will be completed in multiple phases, significantly reducing ramp and parking capacity.

PHASE 1A

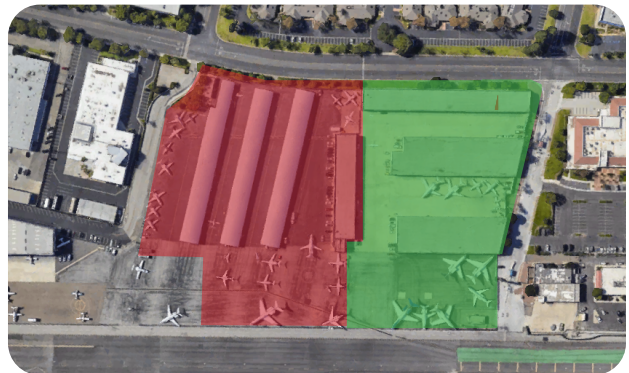

Construction of main ramp

October 28, 2024 - December 16, 2024

Impact level: High

- FBO services are available by reservation only
- Overnight parking is permitted by reservation only
- Very limited ramp space (Maximum of 3 to 4 aircraft staged at one time)

● Construction zone ● Operational zone

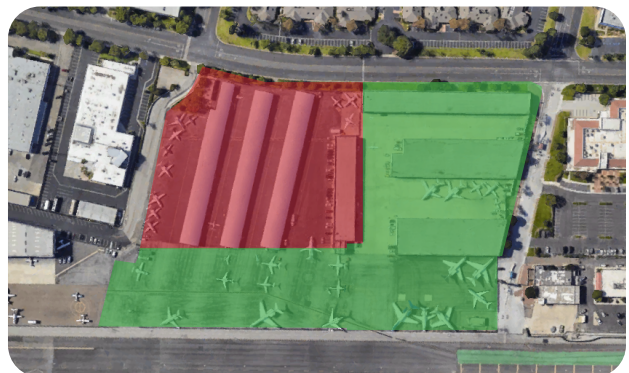

PHASE 1B

Construction of first two hangars, ramp, and the parking lot.

December 16, 2024 - Q3, 2026

Impact level: Medium

- FBO services are available by reservation only
- Overnight parking is permitted by reservation only
- Limited ramp space
