

# NEW FBO & HANGAR CONSTRUCTION

**Q4, 2024 - Q3, 2026**

## RESTRICTED OPERATING CAPABILITIES DURING CONSTRUCTION

Clay Lacy is building a new FBO and hangar complex at John Wayne Airport. Construction began in October 2024, and will be completed in multiple phases, significantly reducing ramp and parking capacity.

### PHASE 1A (COMPLETE)

#### Construction of main ramp

October 28, 2024 - December 16, 2024

**Impact level: High**

- FBO services are available by reservation only
- Overnight parking is permitted by reservation only
- Very limited ramp space (Maximum of 3 to 4 aircraft staged at one time)

- FBO Lobby
- Construction zone
- Operational zone

### PHASE 1B (ACTIVE)

#### Construction of first two hangars, ramp, and the parking lot.

December 16, 2024 - Q3, 2026

**Impact level: Medium**

- Limited ramp space
